

JJ TRAINING

2025 PROSPECTUS

ABOUT US

JJ Training (UK) Limited have been delivering accredited and quality training courses to a variety of industries since 2005. Here at JJ Training Ltd, we pride ourselves on training people to the highest standards, We strive to provide the best service for our clients. Our training and services have helped us to maintain a fantastic reputation within the industry since we began in 2005, and many of our customers come from recommendations. This validates the quality of the service we deliver, and we continue to strive to meet our customers' requirements.

We are an Approved Training Centre

This incorporates all regulated qualifications and boasts accreditation, which includes Highfields, IPAF, ALLMI and NPORS. This will enable us to deliver the highest quality of training, from first aid and manual handling to forklift truck training, lifting operations, and MEWP training. QCF qualified Assessors and Driver CPC, and many more.

All our instructors have vast knowledge and practical experience in a variety of fields, including the plant and construction sectors.

Health and Safety We understand that each working environment is unique. To help us meet your requirements, we offer consultations to identify individual business needs.

We cover all training sites throughout the United Kingdom and overseas.

Health and Safety

Course Title	Duration	Delegates	Accreditation
First Aid at Work	3 Days	12 Maximum	Highfields, In-house
Emergency First Aid at Work	1 Day	12 Maximum	Highfields, In-house
First Aid Requalification	2 Days	12 Maximum	Highfields, In-house
Fire Safety/Fire Marshall	½ Day	12 Maximum	Highfields, In-house
Manual Handling	½ Day	12 Maximum	NPORS, Highfields In-house
Vehicle Marshal	1 Day	6 Maximum	NPORS, In-house
Plant Marshal	1 Day	6 Maximum	NPORS, In-house
Plant Mover	1 to 2 Days	6 Maximum	NPORS

IPAF Courses

Course Title	Duration	Delegates	Accreditation
MEWP Static Boom (1b)	1 Day	6 Maximum	IPAF, NPORS, In-house
MEWP Scissor (3a)	1 Day	6 Maximum	IPAF, NPORS, In-house
MEWP Boom (3b)	1 Day	6 Maximum	IPAF, NPORS, In-house

Lift Trucks

Course Title	Duration	Delegates	Accreditation
Industrial Counterbalance Lift Truck	1-5 Days	4 Maximum	NPORS, In-house
Reach Truck	1-5 Days	4 Maximum	NPORS, In-house

Rough Terrain Lift Truck	1-5 Days	4 Maximum	NPORS, In-house
Telescopic Handler	1-5 Days	4 Maximum	NPORS, In-house
Pivot Steer	1-5 Days	4 Maximum	NPORS, In-house

Cranes /Lifting

Course Title	Duration	Delegates	Accreditation
Appointed Person	1 to 5 days	6 Maximum	NPORS, In-house
Slinger/Signaller	1 to 2 days	6 Maximum	NPORS, ALLMI
Crane / Lift Supervisor	1 to 3 Days	6 Maximum	NPORS
Overhead Gantry Crane	1 to 3 Days	4 Maximum	NPORS, In-house
Excavator as Crane - Requires existing NPORS Excavator card	1 to 2 Days	4 Maximum	NPORS, In-house
Telescopic Handler Suspended Loads – Requires existing NPORS Telehandler card	1 to 2 Days	4 Maximum	NPORS, In-house
Telescopic Handler Suspended Loads (Novice)	5 Days	3 Maximum	NPORS, In-house
Log Handler	1-5 Days	3 Maximum	NPORS, In-house
Marine Knuckle Boom	2 Days	3 Maximum	NPORS, In-house
Material Re-Handler 360°	1 to 10 Days	3 Maximum	NPORS, In-house
Lorry Loader	1 to 2 days	3 Maximum	NPORS, ALLMI, In-house

Cranes /Lifting

Course Title	Duration	Delegates	Accreditation
Dozer	1 to 10 Days	3 Maximum	In-house
Loading Shovel	1 to 5 Days	3 Maximum	In-house
Rear Tipping Dumper	1 to 4 Days	3 Maximum	NPORS, In-house
Forward Tipping Dumper	1 to 3 Days	3 Maximum	NPORS, In-house
Ride on Roller	1 to 3 Days	6 Maximum	NPORS, In-house
Excavator 360° (Above and below 10 tonne)	1 to 10 Days	4 Maximum	NPORS, In-house
Excavator 180°	1 to 10 Days	3 Maximum	In-house
Excavator Mini up to 5 Tonnes	1 to 10 Days	3 Maximum	NPORS, In-house
Quick Hitch Awareness	1 Day	6 Maximum	NPORS, In-house
Excavation Marshall	1 Day	3 Maximum	NPORS, In-house
Skid Steer Loader	1-3 Days	6 Maximum	NPORS, In-house
Shunt Vehicle	1 to 4 Days	3 Maximum	In-house
Power Tools Training Handheld Maximum 4 Tools Per Course	1 Day	6 Maximum	In-house
Cartridge Tools	½ Day	6 Maximum	In-house
Pillar Drill & Bench Grinder	½ Day	16 Maximum	In-house
Abrasive Wheels Awareness - Safe Selection & Mounting	½ Day	6 Maximum	NPORS, In-house
Abrasive Wheels Awareness on Portable Machines:	1 Day	6 Maximum	NPORS, In-house

Safe Selection & Use of			
Abrasive Wheels with Practical Cutting/Grinding	1 Day	6 Maximum	NPORS, In-house
Abrasive Wheels- Hand-Held Petrol-Driven Cut-Off Saw	1 Day	6 Maximum	NPORS, In-house
Face Fit Train the Tester (Masks)	½ Day	6 Maximum	In-house
Face Fit Testing (Masks)	½ Day	10 Maximum	In-house
Cable Avoidance (Cat and Genny)	1 Day	6 Maximum	NPORS, In-house

Working at Height

Course Title	Duration	Delegates	Accreditation
Safe Work at Height	½ Day	10 Maximum	NPORS, In-house
Working at Height Management Awareness	1 Day	10 Maximum	In-house
Rooftop Safety	1 Day	6 Maximum	In-house
Safe Use of Stepladders / Ladders	½ Day	10 Maximum	In-house
Harness and Fall Arrest	½ Day	10 Maximum	NPORS, In-house
Ladders and Steps for Managers and Supervisors	1 Day	12 Maximum	In-house
Site Safety Awareness	1 Day	12 Maximum	NPORS

HEALTH AND SAFETY

First Aid Courses:

Whether you need health and safety training for work or want to learn first aid for your everyday life, we have a course for you.

All our First Aid Courses are:

- ✓ Fully Approved First Aid at Work course following the Health & Safety Regulations 1981.
- ✓ Accredited or In-House certification
- ✓ Adapted to suit your First Aid Needs
- ✓ Available for Novices through to Experienced First Aiders
- ✓ Includes both Theory and Practical Training
- ✓ Fully Interactive

First Aid Courses			
Course Title	Duration	Delegates	Accreditation
First Aid at Work	3 Days	12 Maximum	Highfields, In-house
Emergency First Aid at Work	1 Day	12 Maximum	Highfields, In-house
First Aid Requalification	2 Days	12 Maximum	Highfields, In-house

Fire Safety:

Fire can occur even at well-maintained premises, so your workforce must be fully trained in fire safety. Under government legislation, all employees are required to take adequate fire safety training, regardless of the industry they work in. People in charge of fire risk assessments and fire evacuation procedures require fire warden training, as well as practical training in using firefighting equipment.

JJ Training can provide both on and off-site training for new and existing staff. Courses can be tailored to the type and size of your business, incorporating your fire safety policy and emergency procedures, and at a time that suits your work schedule.

Fire Safety Courses

Course Title	Duration	Delegates	Accreditation
Fire Safety/Fire Marshall	½ Day	12 Maximum	Highfields, In-house

Manual Handling:

Manual handling training is a legal requirement in any situation where your staff are required to do any lifting, lowering, pulling or pushing that carries any level of risk.

This course is designed to help explain the problems associated with manual handling in the workplace. It will also demonstrate the basic principles and techniques of manual handling and provide key information to help reduce the likelihood of injury by emphasising a 'common sense' syllabus.

Manual Handling Courses

Course Title	Duration	Delegates	Accreditation
Manual Handling	½ Day	12 Maximum	NPORS, Highfields In-house

Site Specific Health and Safety Consultancy:

HSE Health and Safety Statistics 2018:

- **1.4 million:** Working people suffering from a work-related illness
- **2,595 People:** Mesothelioma deaths due to past asbestos exposures
- **144 Workers:** Fatal injuries at work
- **0.6 million:** Non-fatal Injuries occurred at work, according to the Labour Force Survey
- **71.062 Workers:** Non-fatal injuries to employees reported under RIDDOR
- **30.7 million:** Working days lost due to work-related illness and workplace injury
- **£15.0 billion:** The estimated cost of injuries and ill health from current working conditions

JJ Training (UK) Limited provide a Health and Safety service tailor-made to your business needs.

We understand that people are the most important part of your business. We will work closely with you to find out exactly what support is needed for your business so that we can identify sensible and practical solutions to your health and safety issues, helping you to comply with current legislation.

Our Health and Safety consultancy package consists of:

- An initial meeting to discuss your site-specific needs
- Health and Safety corporate compliance audit
- Provision of a Health and Safety competent person
- Development of risk management systems
- Development of policy
- Site audit programme
- Training
- Consultancy
- Fire Safety
- Construction Safety
- Four visits a year to ensure all health and safety criteria are met, and any additional recommendations for improvements or training will be discussed.

IPAF COURSE ENTRY CRITERIA:

The following course criteria apply to all MEWP courses.

As the use of MEWP can be physically demanding, users should be physically fit, in good health and generally not have problems with eyesight and hearing.

If you have any problems or have any doubts about your fitness to use MEWP, you must bring them to the attention of your employer. This need not preclude you from using MEWPS, provided your employer conducts an assessment and can put in place adequate measures to take account of any difficulties you may have.

IPAF MEWP Courses

Course Title	Duration	Delegates	Accreditation
MEWP Static Boom (1B)	1 Day	6 Maximum	IPAF, In-house, NPORS
MEWP Scissor (3a)	1 Day	6 Maximum	IPAF, In-house, NPORS
MEWP Boom (3b)	1 Day	6 Maximum	IPAF, In-house, NPORS

Course Title	Duration	Delegates
Lorry Loader	1 to 2 Days	Maximum 4
Slinger Signaller	1 to 2 Days	Maximum 4

JJ Training (UK) Limited are a fully accredited ALLMI Approved Training Centre delivering Lorry Loader and Slinger Signaller Courses. The ALLMI Slinger / Signaller course is approved by CSCS. The ALLMI approved training programme is designed to meet employers' and employees'

responsibilities under the Health and Safety at Work Act 1974, as well as the requirements of all other legislation relating to the operation of lorry loaders.

Slinger / Signaller Training:

The approved ALLMI Slinger / Signaller course content is very comprehensive, and so cardholders can use their skills when performing Slinger / Signaller duties with any type of lifting equipment, not just lorry loaders.

The Slinger / Signaller course consists of 13 modules. The course duration is one day for experienced candidates and a minimum of two days for novice candidates. A maximum of four candidates can attend a course. Both courses culminate in a written and practical examination.

Upon successful completion of the course, every candidate will receive an identity card and certificate and will be registered on the ALLMI & JJ Training database.

The certificate and identity card are valid for five years, after which time refresher training and assessments will need to be undertaken. Candidates also receive the ALLMI Slinger / Signaller manual, which is used as a reference guide throughout their career.

Slinger / Signaller Training:

The Level 2 NVQ/QCF in Plant Operations (Pro-Qual) qualification is competence-based, and candidates must demonstrate the level of competence described in the units.

The qualifications will be assessed in a work environment and under the Construction Skills' Consolidated Assessment Strategy for Construction and the Built Environment, and it will be internally assessed by an appropriately experienced and qualified assessor.

The awarding body for this qualification, Level 2 NVQ/QCF in Plant Operations (Pro-Qual), is Pro-Qual Awarding Body, and the regulatory body is the Office of Qualifications and Examinations Regulation (Ofqual), and is also endorsed by the sector body for construction - CITB.

The qualification has been accredited onto the Regulated Qualifications Framework (RQF) and is published on Ofqual's Register of Qualifications at:

http://register.ofqual.gov.uk/Qualification/Details/601_9028_0. This qualification replaces 600/4275/8 Pro-Qual Level 2 NVQ Certificate in Plant Operations (Construction)(QCF).

There are no Formal Entry Requirements for this Qualification. To achieve the qualification, candidates must complete the two Mandatory units plus the required Mandatory and/or Optional Units from one of the Pathways; they may also complete any of the Additional Units, but these will not count towards the qualification. CITB references and credit values are provided in this document for information only. Mandatory Units for all Pathways CITB references and credit values provided for information only. When the candidate achieves the requirements for this qualification, they will be awarded: A certificate listing all units achieved, and A certificate giving the full qualification title - ProQual Level 2 NVQ Certificate in Plant Operations (Construction).

Warehouse & Forklift Truck Training:

- ☑ All Forklift and Warehouse Courses can be delivered either in-house or NPORS-accredited.
- ☑ All courses are up to 5 Days, depending on experience
- ☑ Trainees can attend our training facility.
- ☑ Our fully qualified assessors and trainers can visit the place of work for site-specific training.

Course Title	
Industrial Counterbalance Lift Truck	Rough Terrain Lift Truck
Reach Truck	Rough Terrain Telescopic Handler
Lorry Mounted Lift Truck	Industrial Telescopic Handler
Order Picker	Pallet/Stacker Truck
Side Loader	Pivot Steer Lift Truck
Narrow Isle Lift Truck	Multi-Directional Lift Truck

Should you operate forklift trucks, you will be aware that all drivers need to be properly trained and certified. This is not as costly or as time-consuming as you might think. JJ Training (UK) offers two services:

Available Courses:

Basic Operators (Novice)

This course is for anyone wishing to learn to drive a Forklift truck without any prior experience.

Duration: 5 Days

Conversion Training

If you already hold a licence for a counterbalance truck or reach truck and would like to obtain certification for another Forklift Truck, then this course is designed for you.

Duration: 1 – 2 Days

Experienced Operator

This course is for those who already have experience driving a forklift truck, but don't yet hold the necessary certification.

Duration: 1 - 3 Days

Lifting Operations

Appointed Person, Slinger Signaller and Crane Supervisor

“Lifting operations can often put people at great risk of injury, as well as incur great costs when they go wrong. It is therefore important to properly resource, plan and organise lifting operations so they are carried out in a safe manner. Each of these elements requires a person or people with sufficient competence to be involved at each step. These people should have sufficient theoretical and practical knowledge of the work and equipment in question, as well as the requirements of the law, to be able to do this properly. For complex and high-risk operations, the planning and organisation should be extensive and meticulous.” – HSE.

With highly trained and experienced assessors, we have some of the most thorough Lifting Operations courses and comply with all current legislation and codes of practice such as the Provision and Use of Work Equipment Regulations (PUWER 98), Lifting Operation Lifting Equipment Regulations (LOLER 98) and BS7141.

Lifting Operations Courses

Course Title	Duration	Delegates	Accreditation
Appointed Person	5 Days	6 Maximum	NPORS, In-house
Slinger/Signaller	2 Days	3 Maximum	NPORS, In-house
Crane / Lift Supervisor	Up to 3 Days	6 Maximum	NPORS, In-house
Overhead Gantry Crane	Up to 3 Days	4 Maximum	NPORS, In-house
Excavator as Crane - Bolt on only	2 Days	4 Maximum	NPORS
Telescopic Handler Suspended Loads - Bolt on only	2 Days	4 Maximum	NPORS
